MULTIPLIER EVENTS OF DIFFUSION AND INFORMATION:

Along the development phase of our project, different events are held in the countries that make up the European partnership. These events aim to inform professional organisations and other social agents related to the group of people with ASD syndrome and with the prevention of occupational risks in companies. Contents of these events are to make known our Project and the different intellectual products that are being made. Until now, the following multipliers events have been carried out:

- Zaragoza (Spain). On October 29th, 2018, an information session of the project and its results, was held at ESIC Zaragoza, organised by Atenciona, with the participation of AEGARE.
- Debrecen (Hungary). On December 14th and 15th, 2018, was held a multiplier event in the University of Debrecen.
- Kocaeli (Turkey). The last event has been held on February 27th and 28th, 2019 by IIMEM (İzmit District Directorate of National Education).

PROGRAM

The program structure of these events has been:

- Presentation of the project.
- Presentation of the studies made and those that are in the study phase.

Attendants

In this multiplier events different stakeholders have participated:

- Specialized trainers.
- Associations linked to the ASD collective.
- Local and regional governments.
- Professional training centers.
- Occupational risk prevention professionals.
- Psychologists.
- Professional training managers.
- Special education centers and schools.

INTELLECTUAL OUTPUTS

The product titled "TRAINING CONTENTS FOR THE PREVENTION OF RISKS AND LABOR HEALTH OF THE ASD COLLECTIVE" has been completed with the participation of all partners in the project.

This report is composed of several sections:

- 1.- Elaboration of the formative contents according to the developed and analyzed previously in the project.
- 2.- Adaptation of the contents to the established training methodology.
- 3.- Adaptation of the formative contents to the gamification format, they are online games whose objective is learning.
- 4.- Accreditation that all the contents developed, are eligible for homologation in the European Qualification Framework.

At the end of April 2019 another transnational meeting will take place in Athens, where the educational platform and the learning games in risk prevention of the ASD collective will be presented.

INFORMATION ABOUT THE PROJECT

If you want to download intellectual outputs above described in the Newsletter, you can do it in our website.
