## NEWSLETTER 04

### TRANSNATIONAL MEETINGS AND MULTIPLYING EVENTS OF DISSEMINATION AND INFORMATION

During the finalization phase of our project, different meetings and events have been held in the countries that form the partnership of the project. The purpose of these events is to inform and disseminate to professional organizations, companies and other agents related to the group of people with ASD and the prevention of occupational hazards in companies. The contents of these events are to publicize our project and the different intellectual products that are ending. Since the publication of Newsletter 3, beginning of April, so far the following Transnational Meetings and multiplier events have been held:

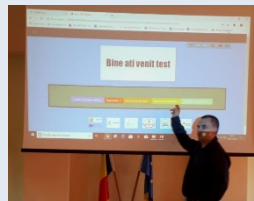

**Athens** (Greece). On April 24th, 2019, 3rd transnational meeting was held at the EILD headquarters for project information and its results.

**Zaragoza** (Spain). On July 16th, 2019, the last transnational meeting at the José Martí Civic Center with ATENCIONA and AEGARE as hosts.

### Multiplier Events

**Braila** (Romania). On July 24th, 2019 at the European Information and Documentation Center, a project multiplier event organized by CREATOR EUROPEAN CONSUTANTS SRL was held.

**Athens** (Greece). On July 31st, 2019 at the headquarters of the International Lions Club there was a project multiplier event organized by the European Institute for Local Development - EILD.

## NEWSLETTER 04

### INTELLECTUAL PRODUCTS

In the multiplier events, the following intellectual products have been reported:

- 1) Selection of key activities and positions in which people with ASD can safely enter the workplace.
- 2) Methodological manual: preparation of training methodology for the ASD group.
- 3) Training contents for hazard prevention and occupational health of the ASD collective.
- 4) Manual of good practices for the prevention of occupational hazards and occupational health.
- 5) Development of the educational platform and learning games.

The general objectives of the final dissemination events of the Project are the following:

- Optimize the flow of information and organize efficient communication between target institutions of the project.
- Make the project known to the potential actors involved and the main actors beneficiaries.
- Inform and communicate its results to public and private organizations and entities interested in the project.
- Present all the intellectual products made.
- Show the itinerary, conclusions and results of the project.
- Creation of networking between teachers and professional education assistants experts in ASD.

### INFORMATION ABOUT THE PROJECT
